

ABHISHEK AINAPURE

Ichalkaranji, Maharashtra | ainapureabhi0821@gmail.com | +91 9049424821 | linkedin.com/in/abhishek-ainapure | github.com/AbhiA0821

PROFILE SUMMARY

B.Tech Artificial Intelligence and Data Science student with a strong foundation in Python, SQL, Machine Learning, Deep Learning, and Generative AI. Passionate about building AI-driven solutions with hands-on experience in developing intelligent applications, data analytics, and machine learning models using modern AI tools and frameworks.

TECHNICAL SKILLS

Programming Languages: Python, Java (Basic), C, SQL

Web Development & Backend: HTML5, CSS3, Flask, REST APIs

Data Science & AI: Machine Learning, Deep Learning, Generative AI, Prompt Engineering, Data Analytics, Data visualization

Databases: SQL (Queries, Optimization, Data Handling)

Tools & Libraries: NumPy, Pandas, Matplotlib, Scikit-learn.

Version Control: Git, GitHub

PROFFESIONAL EXPERIENCE

Tecspeak IT Solutions, Sangli - Database (SQL) Intern

January 2030 - Present

- Worked as a Database (SQL) Intern, gaining practical experience in SQL and database management.
- Assisted in database operations, data handling, and query optimization tasks.
- Collaborated with the project team to support database-related activities under the guidance of the Project Manager.
- Strengthened skills in SQL, database design, and problem-solving through hands-on industry experience.

Infosys Springboard 7.0 - AI Virtual Intern

June 2025 – July 2025

- Participating in an AI-focused virtual internship program to strengthen knowledge in Artificial Intelligence and Data Science.
- Learning and applying concepts of Machine Learning, Deep Learning, Generative AI, and Data Analytics.
- Completing hands-on training modules and practical assignments using Python and AI technologies.
- Enhancing problem-solving and analytical skills through industry-oriented learning.

PROJECTS

Art Generation Using CycleGAN [GitHub](#)

Python, PyTorch, Deep Learning, CycleGAN, GANs

- Developed a CycleGAN-based deep learning model to convert real-world images into Ghibli-style artwork.
- Implemented custom Generator and Discriminator networks with image preprocessing and adversarial training.
- Trained the model on unpaired datasets to generate high-quality stylized images.

AI Resume Analyzer & Live Job Matcher [GitHub](#)

Python, Streamlit, KNN, Random Forest, SQLite, pdfplumber, RapidAPI (JSearch API), Plotly

- Developed an AI-powered resume analyzer that parses PDF/DOCX resumes, extracts skills, and identifies user domains across 11+ engineering fields using Machine Learning.
- Implemented domain detection and skill-based job recommendations with KNN and Random Forest models, enabling personalized career guidance.
- Integrated JSearch RapidAPI to fetch real-time job listings from platforms like LinkedIn, Indeed, Glassdoor, and Naukri, and deployed the application on Streamlit Cloud.

Chatix – Generative AI Chatbot [GitHub](#)

Python, Flask, Phi-3 Mini LLM, Ollama, HTML, CSS, JavaScript

- Developed an AI-powered chatbot using Phi-3 Mini LLM and Flask for intelligent conversational interactions.
- Implemented chat history and optimized local inference with Ollama to provide efficient and context-aware responses.
- Built a responsive web interface enabling seamless real-time communication and user interaction.

CERTIFICATIONS & ACHIEVEMENTS

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional (Sep 2025)
- Oracle Cloud Infrastructure 2025 Certified Data Science Professional (Oct 2025)
- Artificial Intelligence – Infosys Springboard (Apr 2026)
- Data Analytics Job Simulation – Deloitte Forage (Aug 2025)

EDUCATION

- B.Tech in Artificial Intelligence & Data Science

Annasaheb Dange College of Engineering & Technology 2023–Present | CGPA: 7.9

- HSC (Science) | 81%
- SSC (CBSE) | 89%
